**Re: Keynote Speaker Presentation, May 12, 2006
2006 CAPLA Conference**

Dear Michelle,

Your Keynote Presentation to the Canadian Association of Petroleum Administration on May 12, 2006 was such an exciting highlight of the Conference.

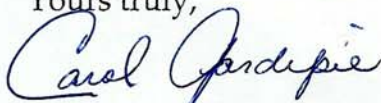

Your topic "The Habit of Personal Leadership... You make the difference" was one of the best keynote's I have had the pleasure of hearing. The topic had an impact for many of the attendees as the evaluation form for the Conference stated. Some of the words used to describe your keynote were "exceptional", "inspiring", "I didn't realize I could make such a difference" and "oh, so true".

Your energy was infectious, your dynamic presentation ensured the attention of the audience of more then 600 people and your humorous presentation style was refreshing and stimulating.

I was so impressed with your presentation! If I need a keynote or full-day session speaker, you will be the first I call.

Thank you so much Michelle, it was such an honor and a pleasure working with such an extreme professional in speaking and in business.

Yours truly,

Carol Gardipie
Speaker Coordinator
2006 CAPLA Conference
